Alternatives

Explain in detail why the proposed action cannot be conducted where a variance would not be required, or where a smaller variance would be required (attach additional pages if necessary).

As per plans attached we would have fencing around the entire yard which also has a forever green area and 2 easements. We contacted the developer to try and petition the 10ft and were told to apply for a variance with the town. As you can see on the plans with current configuration the fence will be 1 foot from the front of the pool. We are asking to either be granted the 10 feet of land or have waived the 10 foot requirement from the middle of the easement. Under the current plan the land would have to be graded and it would be over the steps on our deck

due to the slope. Five-ten feet would put us on the flat part of our property. We have maintained the access area as well as the power box landscaping since we moved in October 2016 and the lot that was vacant next door.

We would also be fine with moving the access to the other side of our house where there is also space to get to the green area.

Dear Bill,

The Highlander HOA ACC hereby approves your application to install the pool, shed and a 6' high white vinyl and steel fence around the back yard of your property as per the specifications set out by yourself and Butler Fence.

The Highlander HOA ACC does not have the authority to grant permission for any change or amendment to the easement rights and access. This change would have to be granted by applying for a variance with the Town of Lysander.

We remind you to please follow any and all town regulations and permits that may be applicable to your project.

Thank you for taking the time to advise us of your intentions.

Sincerely,

Dan E. Bargabos
